FILE HEADING.

Appointment of medical Probationers

From

The Senior Surgeon

No. G.564 Dated 27.6.14 Received 1.7.14

Diary No. 14.	Enclos.	Spare Copies.	Serial No. 1

BRIEF ABSTRACT OF LETTER.

Proposes that medical graduates in the grade of Sub Asst Surgeons, 1st class Rs 60 be formed into a new class with the designation of ~~Sub Asst Surgeons~~ Medical Probationers on a pay of Rs 75/, the number of Sub Asst Surgeons being correspondingly reduced

NOTES AND ORDERS.

The Scales of pay of Sub Asst Surgeons now in force corresponds to that obtaining in Madras. The pay of a Sub Asst Surgeon, 1st class at present is Rs 60. The Senior Surgeon's proposal for a further revision of the Scale is pending orders. In the note in red

NOTES—First Sheet.

GPB—35,000—15-6-12

file 184-12 relating to the question, the Asst Secy (Mr Ramanathan) has suggested a pay of Rs 65 to the Sub Asst Surgeons, 1st class according to the proposals contained in para 5 of the Senior Surgeon's letter, a Med[l] Graduate entertained as a Probationer becomes an Asst Surgeon, 7th class on Rs 80 after two years service as probation and thereafter earns promotion by time scale till he gets into the 1st class of Asst Surgeons.

2 It is a question whether in the event of the Senior Surgeon's proposal being accepted all the Probationers may not be posted for the charge of Travelling dispensaries in the Malnad & their pay met from the Malnad Improvement Grant, thus leaving the grade of Sub Asst Surgeons in the Medical Dept[t] undisturbed.

3 Four[x] of the medical graduates have been granted Scholarships to study for the B.S. Se & B. Sy degrees exam[ns] in Madras & Bombay. The number of Med[l] Graduates now in Service as Sub asst Surgeons, 1st class will be 9 against 13 mentioned in the Senior Surgeon's letter. It is also to be noted that men with L. M & S. qualification to be entertained in future will also have to be

[x] Scholarships recommended for 4. Two have been granted i.e Grants of Scholarships to the remaining two is pending orders of Govt[t]

6 Sub?

It has not been stated whether the allowances now being paid to the Sub-Asst Surgeons will be discontinued on their appointment as Medical Probationers. If so, the immediate additional cost to Govt will be only Rs 75/- per month or Rs 900 per annum. There will be some further addition to the recurring expenditure when the Probationers are to be confirmed as Asst Surgeons on Rs 80/- per month after 2 years' probation.

The Senior Surgeon's new proposal to require the Dt. and Municpl Boards to contribute to the Provincial Funds has also been decided.

16 The Senior Surgeon's proposal involves an additional recurring charge of Rs 90/- per month if the allowances are also taken into consideration. As the question of the Municpl & local Boards contributing towards the pay and allces of Medical officers has not yet been settled the proposal will involve an addl recurring charge of Rs 90+120 or Rs 210 per month or Rs 2520 per annum.

17 The increase of extra recurring charges can be kept down by limiting the number of Medical Probationers to 6 or 7 If the Senior Surgeon's proposal of recovering a good portion of the pay and allowances of medical officers lent to Municipalities and local boards is sanctioned, there will be some relief to the Provincial funds. In that case there will be no objection to sanction the scheme of Medical Probationers

BBR
7/9/14

18 The proposal of the Senior Surgeon is to create a new grade of Medical officers styled Medical Probationers to consist of Medical graduates on a pay of 75 Rs to begin with. They are to be confirmed as Asst Surgeons on 80 Rs. after two years approved service and treated as Supernumeraries in that grade till they are absorbed. It is proposed to appoint 14 medical graduates who are at present working as 1st Class Sub Asst Surgeons to these places. It is also said that these appointments will not raise the strength of the department as the Probationers would be appointed instead of Sub Asst Surgeons and when

and to appoint 16 more for against Vacancies in Sub asst grade or in all 30 ±

NOTE—Contn. sheet.

G.P.H.—10,000—12-5-14

G. R. S. 12]

General and Revenue Secretariat. | Med File No. 3 of 1914.

Serial No.

such appointments are made, a corresponding number of Sub asstt Surgeon's places would be left unfilled. It is not Exactly clear how this is possible if, as proposed, during the first ~~year~~ eighteen months they are to be trained in the Victoria Hospital, Mitchell Hospital etc and during such period they will be a clear Excess to the Scale if all sanctioned charges are filled or some of the sanctioned charges will have to be kept Vacant, if the S^d number is not to be Exceeded

19 The Exact financial effect has not been correctly ~~calculated~~ estimated by the S^r Surgeon. As each Probationer is to be appointed automatically as an asstt Surgeon with a time scale pay rising from 80 to 300 Rs and against ~~this the~~ this there is only the saving of the pay of a Sub asstt Surgeon which ~~would be~~ ranges from 30 to 60, and as the chances of a Supernumerary asstt Surgeon getting absorbed in the asstt Surgeon's ~~grade~~ Scale, as the Scale Stands at present (and as the prospect of some Scholars now in England returning and getting appointed as Supernumerary asstt Surgeons,) are very remote, the Extra Cost involved in appointing one medical Probationer is very much more than

NOTE—Contn. sheet.

GPB—10,000—13-6-14

Serial No.

The excess cost per Probationer p.m would be the difference in average cost of a Sub Asst Surgeon's post on 30 to 60 and an Asst Surgeon's post on 80 to 300 - at least 100 Rs.

what the Senior Surgeon puts it at, viz an increase of 90 Rs p.m for 14 graduates (Para 2 of his letter dated 28.8.14). Even in this calculation he has taken into account the charge allowance of 10 or 15 Rs paid by Local Funds for Sub Asst Surgeons in charge of L.F. dispensaries, which ought not to be included in calculating the extra charges which Govt have to incur — even assuming that when they are appointed Probationers these allowances will cease. When the scale of asst. Surgeons is 33 according to the Civil List it would be impossible to absorb in any reasonable period 30 supernumeraries. Even if we are to rely on the Senior Surgeon's statement that the number of Probationers would not be 30 at any time it is difficult to see how he can absorb more than one or two as Asst. Surgeons during the next few years.

20 If these appointments are to be made for getting recruits for Asst Surgeons places which alone is meant by styling them probationers, they should be made strictly with a view to the number required for filling up vacancies in the Asst. Surgeon's grade, which under present circumstances is nil or perhaps one or two but certainly not more. The attempt

General and Revenue Secretariat. | Med File No. 3 of 1914.

Serial No.

342 | 447 | to replace the present Sub-Asst: Surgeons by medical graduates involves a large extra expenditure and it is for the consideration of Govt if it is better to ~~have~~ spend a certain sum of money in having a larger number of ~~Hospital assistants~~ Sub: Asst Surgeons or a smaller number of highly paid Medical graduates. It is not, I think, economical to have highly paid graduates in charge of small and moderately equipped dispensaries in out of the way places. It would also appear that the proposal to appoint the 30 medical graduates as Probationers will involve an extra expenditure of at least 3000 x 12 or 36,000 Rs per annum and that it will take a very long time to absorb them in the Asst Surgeons' grade if the scale of Asst Surgeons should remain what it is at present. and that only one or two probationers need be appointed, if necessary, to fill Expected Vacancies in the Asst Surgeon's grade.

26. I do not see the need to send the file to the Senior Surgeon. It is not usual in any department to have as many as 16 Probationers. If the proposal were that they should be promoted to the grade of Asst Surgeons only on the occurrence of vacancies in that grade there would be some force in it. But the idea is to give them an increase of Rs. after 2 years approved service and confirm them as Asst Surgeons 1st class on Rs 80 and treat them as supernumeraries until they are absorbed in regular vacancies on the cadre of Asst Surgeons. Having regard to the

NOTE—Contn. sheet.

Serial No.

fact that the number of vacancies in the grade of Asst. Surgeons for several years to come is likely to be very limited it will lead to serious discontent and much unprofitable increase of expenditure to have a number of supernumeraries in the department.

27. The present system of appointing persons with the L.M.S. Qualification as ~~Unofficial~~ Sub Asst Surgeons of the first grade & leaving their future prospects to the occurrence of vacancies has much to commend it. There will always be a need to have a reserve of some officers with European Qualifications for some of the more important appointments. In these circumstances it does not seem to be possible to sanction the Senior Surgeons proposals

med 3-14 &. : 1

Sir,

The local medical service is composed of two classes of men- (1) graduates in medicine & surgery, who hold European or Indian University degrees, and (2) persons who had their medical training in one of the Medical Schools, qualifying them for the post of Sub Assistant Surgeons. The former are in the officers' grades and the latter in the subordinate grade. Recently, however, some medical graduates, being compelled by want, have accepted appointments as 1st Class Sub Assistant Surgeons on Rs 60/- plus 10/-. Many a medical graduate who would gladly enter our Service is still holding out, deterred by the designation of Sub Assistant Surgeons.

2. With a view to remedy this defect and to attract more medical graduates into the Service, I beg to propose that these medical graduates be formed into a new class to be called "Medical — Probationers." The pay of these Medical Practitioners may be fixed at Rs 75/- per mensem, corresponding to the pay of Revenue & Judicial Probationers.

3. During the probationary period, these young men will be posted for training to the Victoria Hospital, Banlore, or General Hospital, Mysore, for a period of one year and

Enclosure No.

SUBJECT.

Requesting sanction of Govt. for the appointment of certain medl. graduates with the designation of "medical Practitioners" on Rs 75/- per mensem &c.

and then for two months each, in the Minto Ophthalmic Hospital, the Maternity at Bangalore or Mysore, and the Vaccine Institute. They will then be posted as Assistants to the District Medical Officers in charge of the District Hospitals, or to the charge of Local Fund Dispensaries at important stations.

4. As these Probationers are entertained, the number of Sub Assistant Surgeons in the Service will be correspondingly reduced, so that there need be no addition to the permanent strength of the Department. Nor will the pay of Rs 75/- proposed for the Probationers involve any extra cost, in as much as these medical graduates, even as 1st Class Sub Assistant Surgeons, are being employed on Rs 60 plus 10 or 60 plus 20, according as they are posted to a maidan or a malnad dispensary.

5. After two years of approved service, these Probationers may be given an increase of Rs 5 and confirmed as Assistant Surgeons, last class, on Rs 80 and considered as Supernumeraries, to be absorbed as vacancies may occur in the grade of Assistant Surgeons.

6. It is my intention to secure the services of young Medical Officers possessing University qualifications for the charge of the stationary dispensaries in the malnad, as well as for the itenerating dispensaries to be opened in connection with the Malnad Improvement Scheme. There are several important stations in the other parts of the Province, the dispensaries whereat could with advantage be placed in charge of officers with higher qualifications, but which are now only in charge of Sub Assistant Surgeons.

7. It is, therefore, my fervent hope that this scheme will be acceptable to Government and will receive their early sanction. Before concluding, I beg to submit for the information of Government that I have three graduates who are employed as 1st Class Sub Assistant Surgeons, under training in the Victoria Hospital, and I hope to post three more for trainfng in the near future, as vacancies occur in the permanent staff of the Hospital.

8. There are at present 13 such graduates serving in the grade of 1st Class Sub Assistant Surgeons, and their salaries amount to Rs 900/- per mensem, as noted in the margin.

1. S. Varada Iyengar	-	Rs 60	plus 10.	Their pay at Rs 75 as proposed, will amount to Rs 975/- per mensem or an increase of only Rs 75/-. But the increase in the efficiency of the Department that will result by the adoption of my scheme, will be out of proportion to any small increase in expenditure which the scheme may involve.
2. M.G.Deendayal Singh	-	Rs 60	" 10.	
3. B. Rajagopaul Naidu	-	Rs 60	" 15.

med 3-14 8. 3

Sir,

With reference to your letter No.1449-Med.3-14-2 dated 7th August 1914, observing that the appointment of certain medical graduates, now serving as 1st Class Sub Assistant Surgeons, as Medical Probationers as suggested in my letter dated 27th June 1914, will involve additional cost to Provincial Funds, I have the honor to state that this difficulty does not seem to be an insurmountable one. These Medical Probationers will, after their post-graduate course, be posted to the charge of Local Fund Dispensaries at important stations, and it will not be unreasonable on the part of Government to require the Local and Municipal Boards to contribute to Provincial Funds at least a sum equal to the charge allowances now paid by them (if not also a part of the pay of the Medical Officer in charge.) It is understood that in British India, the local bodies bear the entire charge on account of the pay of the Medical Officers or subordinates employed by them, the Government contributing only 5 % of their pay for Government work done by them.

2. There are at present 14 such medical graduates in the service, working as 1st Class Sub Assistant Surgeons, one more having been entertained in the service since the date of

Enclosure No.

SUBJECT.

Regarding the
appointment of Med.
Probationers in the Dept.

my last letter on the subject. My proposal is intended to apply to all these 14 men. The additional cost to Government on account of their entertainment at the outset which was already stated in my last letter as Rs 75/- per mensem for the 13 men, will now be Rs 15 more, on account of one P. Parthasarathi, since employed, or Rs 90 per mensem on the whole.

3. These men have been all entertained against permanent vacancies in the grade of Sub Assistant Surgeons and as I have already submitted, the creation of the class of Probationers is not intended to increase the total strength of the Department, as the number of Sub Assistant Surgeons will be correspondingly reduced.

4. I append a list of 1st Class Sub Assistant Surgeons who have to retire in the usual course within the next three years. It is my intention, with the permission of Government, to fill up these 16 vacancies, as far as possible, by the appointment of Probationers, whenever medical graduates are available. This does not, however, mean that there will be 30 Probationers in the Department at any time. For, it is doubtful on the one hand whether we shall be able to secure graduates for all the 16 prospective vacancies, and on the other hand, some of the present 14 graduates may go to fill up vacancies in the grade of Assistant Surgeons.

5. I request favourable orders of Government on the proposal, which is mainly intended to secure a good number of trained graduates for filling up vacancies in the higher grades and to improve the efficiency of the Department as a whole.

I have the honor to be,

Sir,

Your most obedient servant,

Senior Surgeon.
